Dear Parents/Carers

Hot Weather and School Attendance

As temperatures are forecast to be particularly high over the coming days, we would like to reassure families that we have a number of measures in place to help keep pupils comfortable and safe while at school.

Turves Green Boys' School is a modern school building that is less than ten years old and has been designed well to deal with increased temperatures, with effective ventilation systems throughout. In addition, key areas of the school are equipped with air conditioning units, helping to maintain comfortable learning environments during periods of hot weather. Pupils also have access to water fountains across the school, providing a constant supply of fresh, cold drinking water throughout the day. A reminder that pupils are also not required to wear their blazers in school currently.

We would like to take this opportunity to emphasise the importance of strong school attendance. While we understand that hot weather can be uncomfortable, our facilities and procedures enable us to continue operating safely and effectively. We therefore expect all pupils to attend school as normal. Every day in school is important, and regular attendance plays a vital role in pupils' learning, progress and wellbeing.

To help your child stay comfortable during the warmer weather, we ask that you:

- Send your child to school with a water bottle.
- Apply sun cream before your child leaves for school.
- Encourage your child to wear a hat or cap during their journey to and from school.

Staff will continue to monitor pupils throughout the day, encourage regular hydration, and make use of shaded and cooler areas where appropriate.

Thank you for your continued support and cooperation.

Yours faithfully

Mr J Till
Executive Headteacher

Mr T Walker
Head of School
